Preliminary Speaking Part 1 – teacher’s notes

Description
In this activity, students watch or listen to a Part 1 performance and reflect on the format and function of this part of the Speaking test. They also consider what makes for a good answer and practise doing Part 1 together.

Time required: 50 minutes

Materials required:
- Audio or video recording of Part 1 of the Speaking test (e.g. the Preliminary Speaking test video pack, available from Cambridge English)
- Sample task
- Student's worksheet
- OHT of step 2 questions (optional)

Aims:
- to introduce Part 1 and its place in the Speaking test
- to give practice asking and answering the type of questions used in Part 1
- to raise awareness of what examiners and candidates have to do in Part 1

Procedure

1. Ask students to discuss with their partner what they know about the Speaking test, then elicit some basic information, e.g.
   - Are you tested alone or in pairs/threes? (pairs unless there is an odd number of candidates)
   - How many examiners are there? (2, the interlocutor and the assessor)
   - How many parts are there? (4)
   - How important is the Speaking test? (it is equal to the other parts as it is worth 25% of the total marks)

2. Put the following questions on the board or on an OHT (see below) and explain that they are going to watch/listen to a sample Part 1 to find out the answers. If you don’t have access to the Speaking test video pack, you could record yourself and two colleagues doing Part 1 as an audio recording, using the transcript provided here.
   - Do we find out the names of the examiners? Why do you think this is? (Yes. It is natural and polite, it will make you feel more comfortable)
   - Have you ever been asked questions in English like these in real life? (Answers may vary but probably they will all have been asked similar questions in English)
   - Are the questions about your daily life or about unusual topics? (Daily life)
   - Do you have to spell anything? (Yes, your name)
   - How long do you think this part lasts? (2–3 minutes)
• Do the candidates give one word answers? (No, they answer in sentences most of the time e.g. Where do you come from Eva? I'm from Spain as well instead of just Spain)

• What effect does this have? (Their answers sound natural and friendly and they use more language.)

• Do you think the candidates use pre-rehearsed speeches? (No, they sound natural which is very important, examiners will not give you marks if they feel your answers have been pre-rehearsed.)

• How do the candidates seem to feel – nervous or relaxed? Why? (They seem nervous at the beginning but they start to relax once the test has started. It is normal to feel nervous in the Speaking test but the first part is designed to settle you into the test and to find out some general personal information using simple social interaction.)

3. Explain that students are going to listen to a good example of a full answer given by a candidate. Replay the following part of the recording/video or focus students on it in the transcript (or find an equivalent if you are using a different video of a Part 1). Eva, what did you do yesterday evening? Yesterday evening…I was in home. And I … I was watching TV for one hour more or less and then I was studying for two hours and half more or less. And I always read a book before go to bed. Ask the following questions:

• How many activities did she talk about? 3 – watching TV, studying, reading a book

• What other information did she add? The length of time spent on each, where she was and that reading was a daily habit

4. Hand out the student's worksheet. Explain that these are the questions from a sample Part 1. Allow students a few minutes to work in pairs to discuss ideas of what candidates could talk about in their answers before taking feedback of a few ideas with the whole class.(see key below).

5. Explain that they are going to practise a sample Part 1 in pairs, with one student asking the questions and the other one answering. Divide the class in half; one half will be the examiners, and ask them to find a partner to be their candidate. Start the activity and monitor the length and content of answers given.

6. Stop the activity after a few minutes and comment on some good full answers you heard and some weaker shorter answers.

7. Students swap roles and repeat the activity. Monitor and give feedback.

8. Hand out the sample task. Put students in pairs to look through it and answer the following questions:

• What do you think the back-up prompts are for? (They are used when a candidate hasn’t understood the question, so the examiner asks the same question using different words. Candidates are not penalised for asking for repetition or clarification as long as they can form the appropriate question to ask for them.)

• Do both candidates have to answer the same questions in Phase 1? (Yes, first candidate A answers them and then candidate B answers them.)

• What are the differences between Phase 1 and Phase 2? (In Phase 2, candidates A and B may have to answer different questions, the questions are chosen from a list of possible questions so there is more variation, candidate B starts. NB Point out here that Phase 1, in comparison, the questions are always asking about the candidates name, hometown, work/study.)
9. Brainstorm a list of possible topics that could be covered in Phase 2 with the class and write them on the board. Examples are: family, home life, daily routine, likes/dislikes, education, job, travel, hobbies, holidays/weekends.

Suggested follow-up activities

1. Teach the questions for asking for clarification or repetition.
2. Use activities such as Just a Minute where students have to speak on a familiar but random topic for a minute without preparation.
3. Ask students to expand their answers when speaking in class by giving reasons and examples.
4. Use the questions from Part 1 as regular warmers e.g. chatting to your partner about what you did last night.
