## An excellent foundation in learning English

Cambridge English: Young Learners is a series of **motivating, activity-based language tests**, specially designed for children at primary and lower-secondary school.

Schools all over the world use these tests to motivate their students to learn English and show parents the progress their children are making.

Cambridge English: Young Learners is available on paper, computer and supported tablets, giving you more choice in how students take the tests. Contact your local centre to find out more about the computer-based tests.

### Real everyday English

Realistic everyday situations bring learning to life. The tests cover familiar, interesting topics and are designed to develop the skills your students need to communicate in English.

### A Cambridge English certificate for everyone

Every student who takes a test gets a Cambridge English certificate – it's a great way to reward achievement.

## What level are the tests?

There are three tests – Starters, Movers and Flyers. This gives your students a **clear path to improve in English**.

The tests offer natural progression towards other Cambridge English for Schools exams, so your students can continue to build up confidence in English step by step.

The tests are aligned with the Common European Framework of Reference for Languages (CEFR) – the international standard for describing language ability.

## What's in the tests?

The tests cover all four language skills (reading, writing, listening and speaking) and include fun activities to motivate students to do well.

The tests are designed to be fair to students of all nationalities and linguistic backgrounds and are supported by a dedicated research programme.

The tests are quick to take and available on demand.
