A2 Key for Schools

Sample Material for Special Arrangements Versions of Speaking Tests

Examinations from 2020
Introduction

What happens?

For most examinations, blind candidates and candidates with visual difficulties may choose to take the speaking test alone or with a partner.

All tests have two examiners, the Assessor and the Interlocutor, even though the candidate is taking the test alone.

The partner may be:

- another candidate who is visually impaired
- a ‘dummy partner’ (a colleague or friend who is not taking the examination, has a similar level of English as the candidate, and is familiar with the format of the Speaking Test). The dummy partner can be either visually impaired or sighted.

Who are Special Arrangements versions for?

On the following pages are sample materials for both single and paired candidate formats, which include:

- Standard visual material
- Enlarged visual material
- Enlarged written prompts.

Enlarged print versions with written prompts are for candidates with visual difficulties, and candidates who have a physical disability which makes it difficult for them to read normal-sized print or focus on pictures/photographs.

Brailled material will be supplied for blind candidates, or those with severe visual impairments who prefer to work from Braille. Sample brailed material is not provided here, but note that brailled written prompts are the same as those used in enlarged material.

What material is used with candidates who are visually impaired?

Most Speaking Tests like A2 Key for Schools Speaking use pictures or other visuals as a stimulus for interaction. For visually-impaired candidates, a special version of the speaking test is produced.

Candidates can opt to use standard or enlarged visuals, written prompts (enlarged) or written prompts which have been brailled.

The following is an example of how the visual input might be adapted as a written prompt for Cambridge English: A2 Key for Schools Speaking:
All printed text is enlarged to a uniform font size and type (Arial 18 point bold – see example above).

Candidates should use the written or visual prompts as a stimulus for discussing likes, dislikes and giving reasons in Part 2 of A2 Key for Schools Speaking.

Examiners are given adapted scripts (called ‘interlocutor frames’) to use with the material. There are different interlocutor frames for candidates taking the test alone and for candidates taking the test with a partner. These interlocutor frames are designed to keep the test as close as possible to the standard A2 Key for Schools Speaking test in terms of structure and candidate experience.
The single candidate format

Candidates can opt to take the test alone if preferred, or in circumstances where a partner may not be appropriate. In both cases, a single candidate version of the test can be provided using:

- **Visual material**
  - Standard visual material
  - Enlarged visual material

- **Written prompts**
  - Enlarged written prompts
  - Braille prompts

**What happens in the single candidate format test?**

Special interlocutor frames are prepared. In some parts of the test, the interlocutor takes the part of the other candidate.

Interlocutors, while playing the role of the candidate’s partner, will not dominate or monopolise the conversation and will always use vocabulary at CEFR A2 level. Interlocutors restrict themselves to minimal prompts and questions sufficient to keep the conversation going in a reasonably natural way and ‘open’ questions are used to encourage the candidate to continue speaking (e.g. ‘What do you think?’).

**What about timing?**

For both paired and single candidate format tests, interlocutors allow candidates additional time to process texts or questions before replying, or to read and think about written material. The amount of additional time is at the discretion of the examiner, but candidates are always given sufficient time to read and process tasks. Approximate timings are shown in the following sample interlocutor frames.
