B1 Preliminary for Schools Speaking Part 1

Description

This lesson plan has been created to help students prepare for B1 Preliminary for Schools Speaking Part 1. This lesson plan can be delivered face to face or online. The ‘online options’ column gives teachers ideas how the stages could be adapted for teaching online.

In this lesson, students watch and analyse a sample test of Speaking Part 1, then practise asking and answering the same questions.

**Time required:** 60 minutes (can be extended or shortened as required)

**Materials required:**
- Paper and pen/pencil for each student
- B1 Preliminary for Schools sample task (see below)
- Prepared presentation/PowerPoint slides

**Aims:**
- to identify how to respond to questions in Speaking Part 1
- to complete a Part 1 Speaking task for B1 Preliminary for Schools
- to review family members vocabulary

**Procedure**

**Warmer**

Display a photograph of a family appropriate to your context. Next to the photograph, display scrambled words of family members:

1. tressi  
2. clenu  
3. madgarn  
4. brrheto  
5. drafthanger  
6. termoh  
7. tuna  
8. hatref

Students work in pairs to unscramble the letters of each word to make a family member. They can write the letters and words on paper to help.

Check answers as a class. If necessary, check understanding (e.g. *What do you call your mother's brother?*).
**Answers:**

1. sister
2. uncle
3. grandma
4. brother
5. grandfather
6. mother
7. aunt
8. father

**Introduction to Part 1 Speaking test video**

Tell students they are going to watch Part 1 of an example speaking test. In Part 1, examiners ask individual candidates questions about themselves. One of the questions the candidates in the video will answer is which family members they live with.

Show students this still from an example Part 1 Speaking test video.

Ask students to discuss in pairs where they think they boys are from and how old they are. Alternatively, ask these questions to the whole class.

Play the **video** from 0.00-0.50 for students to check their predictions. Students check in pairs, then elicit answers from individuals as a class.

**Answers:** Roberto is 13, Simone is 14. They both live near Milan (in Italy).

If possible, either put students in breakout rooms or enable private chat to allow pairs to discuss the picture. If done as a whole class, students can shout out their predictions or type them in the text chat.

You can share the video by:
- sharing your screen and sound
- sharing a **YouTube link** in the chat
- sending the video or link by email to students or their parents (depending on their age)
- posting the video or a link on your shared website

Ask students to mute their audio while the video is playing.

You could get students to quickly share their answers in pairs in breakout rooms before checking with the whole class.

**Watch a sample Part 1 Speaking test**

Display the questions the examiner asks next:

1. Tell us about a teacher you like.
2. How often do you use a mobile phone?
3. How do you get to school every day?
4. Which do you like best, the morning or the afternoon?

Ask students to write numbers 1-4 on their paper, like this:

Share your screen or copy the questions into the chat.
Set the listening task:

Write R next to the questions Roberto answers, and S next to the questions Simone answers.

Play the video from 0.50-2.05 for students to check their answers.

**Answers:**

1. Tell us about a teacher you like. **R**
2. How often do you use a mobile phone? **R**
3. How do you get to school every day? **S**
4. Which do you like best, the morning or the afternoon? **S**

**Analyse the video**

Display the following statements on the screen. Ask students if they are true or false.

1. The boys gave one or two word answers. **False. They expanded their answers.**
2. They boys gave reasons for their answers. **True. They often gave more information, reasons or examples.**
3. The boys did well in this part of the speaking test. **True, because they expanded their answers and gave more information, reasons or examples.**

**Ways for students to participate in this activity:**

- Read out one statement at a time: students type T or F in the chat; or students shout true or false.
- If you have an Annotate feature, students can read the statements and tick or stamp those that are true.
- Put them in breakout rooms to discuss while you go from room to room to monitor.

**Speaking practice for Part 1**

Students might want to know what score the two boys got. Remind them that they have only seen the first part of the speaking test, but tell them these students were strong candidates and both passed.

Clarify that candidates don’t have to speak for a long time in Part 1 of the test, but they should try to expand their answers, give reasons or examples rather than one-word answers.

Share your screen or type the
Display this question from the sample test materials:

   Do you live with your family?

Nominate one of the students to ask you the question. Reply only with ‘Yes’. Ask if this is a good way to answer (no, too short) and elicit a better response (for example, ‘Yes, I live with my mother and my two sisters’).

Share the sample Part 1 speaking questions with students. Divide them into pairs. They take it in turns to ask and answer the questions, making sure they give reasons or examples, not just one-word answers.

As you monitor, note down errors (grammar, vocabulary and pronunciation) and examples of good language use. If you keep notes on your computer, don’t share the screen yet.
