

#### A1 Movers Speaking Part 1 – Describing Differences

#### Description

This lesson plan has been designed to help students prepare for A1 Movers Speaking Part 1 where they describe differences. This lesson plan can be delivered face to face or online. The 'online options' column gives teachers ideas about how the stages could be adapted for teaching online.

In this lesson students develop confidence responding to spoken descriptions of pictures before describing them themselves and then finally, creating their own 'spot the difference' activities for classmates. Further practice is provided with an additional A1 Movers Speaking – Describing Differences task.

Time required:	40 – 60 minutes
Materials required:	<ul> <li>Pictures</li> <li>Handout 1</li> <li>Handout 2 (sample test)</li> </ul>
Aims:	<ul> <li>To review A1 Movers vocabulary.</li> <li>To help students identify places, people and objects from a written description.</li> </ul>

#### **Procedure:**

Lesson Stages	Online options
Welcome	
Greet students and ask them how they are.	Ask your students to do this by turning their microphones on.
Vocabulary challenge	
Put students into groups.	Use your platform's whiteboard to display the picture – and a drawing object to cover it.
Cover <u>Pictures 1-8</u> with a sheet of paper, then when holding them up (so all students can see them) slowly move the covering sheet of paper to reveal a small part of a flashcard	
image. Ask students to guess what the picture is.	Otherwise, print <u>Flashcards</u> and use another sheet of paper to do this stage over your webcam
Award points to the first group to guess correctly, repeat with the other flashcard pictures.	
Listening actions	
Display Pictures 9 and 10, side-by-side on the board.	Display the flashcard images on
Read the following descriptions to students. Ask them to:	a collaborative whiteboard (for example,
<ul> <li>touch their left ear with their left hand if the sentence</li> </ul>	https://jamboard.google.com/).
	Demonstrate the actions with

Cambridge English Qualifications

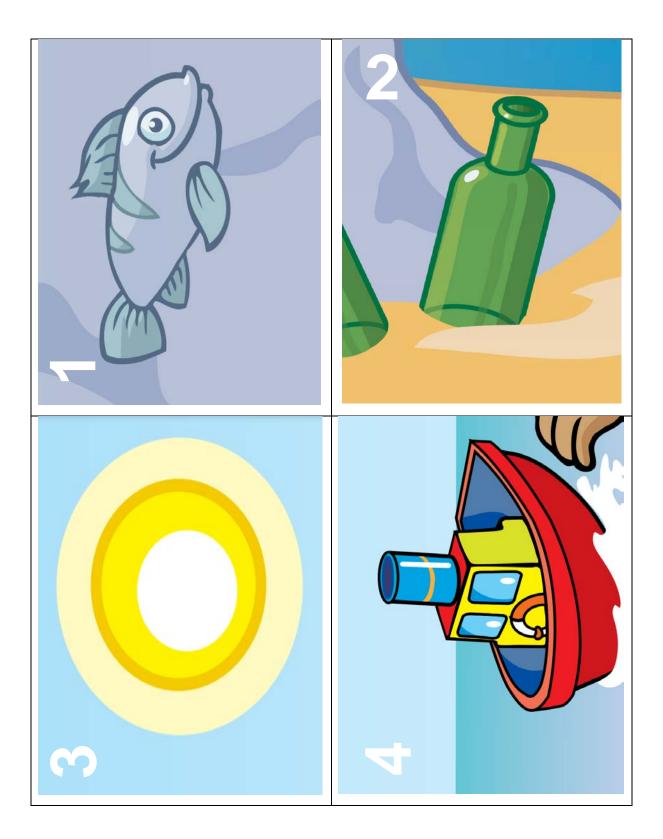

describes Picture 9.	your webcam. If your platform	
<ul> <li>touch their nose with their right hand if the sentence describes <u>Picture 10.</u></li> </ul>	enables students to safely use their webcams, then ask them to do so for this stage.	
<ul> <li>touch their head with both hands if the sentence describes both pictures.</li> </ul>	Otherwise, allow students to follow along at home. Pause and give thinking time before showing the correct actions and	
Descriptions:		
<ol> <li>There are fish in front of a rock. (Both)</li> <li>There are 5 fish in front of a rock. (Picture 9)</li> <li>There are 4 fish in front of a rock. (Picture 10)</li> <li>A girl is in the sea. (Both)</li> <li>The girl has a yellow watch. (Picture 9)</li> <li>There are 2 bottles. (Both)</li> <li>A girl is playing with a boat. (Picture 10)</li> <li>The bottles are behind a rock. (Picture 10)</li> <li>There is a whale. (Both)</li> <li>There are two clouds. (Picture 10)</li> <li>Choose a student to point to the objects described. Highlight</li> </ol>	highlighting the relevant area on your whiteboard.	
language used to describe the position of objects (in front of / behind / next to).		
Board slaps (listening race)	Continue to display the flashcard images on a collaborative whiteboard (for example, https://jamboard.google.com/). Put students into teams, giving each a different colour.	
Draw a square under Pictures 9 and 10. Write "both" inside it.		
Put students into teams. Ask them to choose team names. Write these on the board. Choose one student from each team to come to the board (try to choose students with a similar level of English).		
Demonstrate, then begin the activity:		
Describe something in the pictures (reuse the descriptions from the previous stage). Students try to win a point for their team by being the first to slap the correct picture or "both".	Students race to circle the picture you describe, winning a point for their team. Repeat with	
Award points to the first student who correctly slaps the right picture. Change the students representing their team regularly.	other pictures.	
Now you do it!		
Put students into small groups (3-5 students), giving each a copy of <u>Handout 1</u> .	Choose a strong student to turn on their microphone and	
Show students how to repeat the previous activity within their groups:	describe something from one or both of the pictures.	
Using <u>Handout 1, a student gives a description</u> , while the others race to slap the correct picture.	Other students race to say (in the chat) which picture is being described.	
The first group member to win 3 points becomes the 'describer', and play continues.		
Make your own 'Spot the difference' activity (Optional extension activity)	Using your webcam, show	
Arrange things from a pencil case (or other objects in the	students some objects you have	

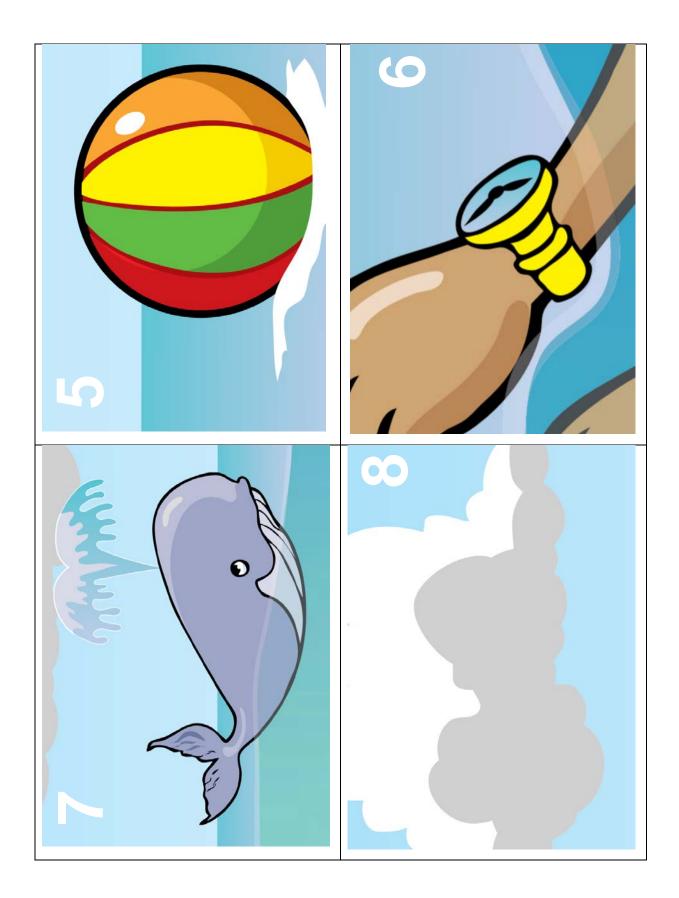

room). If possible, take a photo of the scene.	arranged. Give them 10
Tell students to close their eyes as you (re)move a few objects. If possible, take a photo of the new scene,	seconds to memorise the scene. Turn off your webcam, change
Ask students to open their eyes and describe what has changed. When they have identified all the differences, record yourself describing them (with your phone's voice recorder).	the arrangement, and then turn it back on again, asking for suggestions about how it changed.
Ask students to describe what you just did (took 'before' and 'after' photos of a scene, before recording a description of the differences).	Ask students to create their own 'Spot the difference' activity, by taking two photos of a scene. Ask parents to share the pictures with you so they can be added to a shared space, for example a Padlet (www.padlet.com).
Tell students they can make their own for (optional 'fun') homework. Ask parents to send you their two photos to be incorporated within the next class.	
	When complete, share the link with students and ask them to complete each other's 'Spot the difference' activities.
Exam practice	
Provide additional exam practice with <u>Handout 2</u> . Put students in pairs and ask them to take turns describing the differences between the pictures.	Ask students to do this individually, recording their efforts (which can be shared with the teacher and feedback provided).

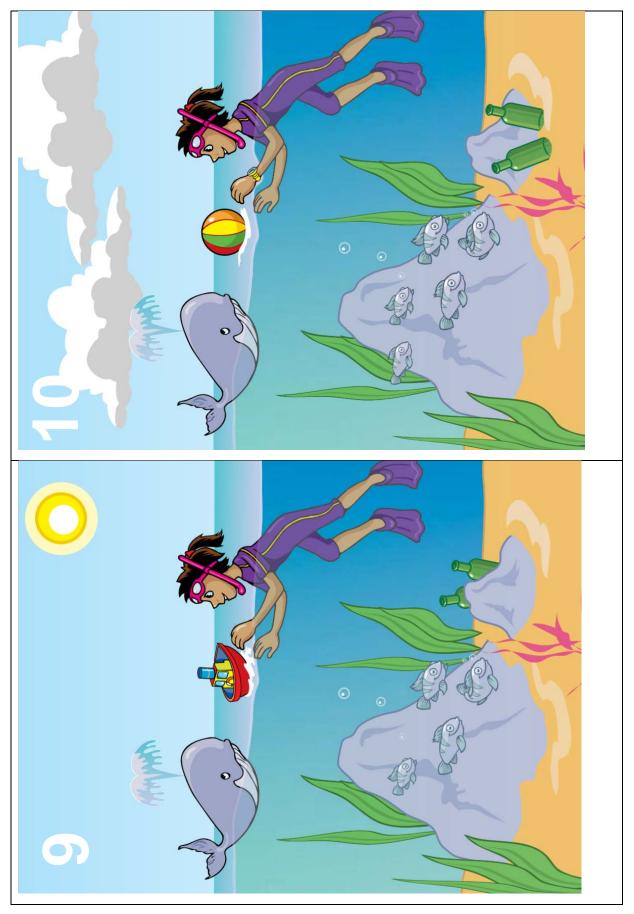

# **Pictures**

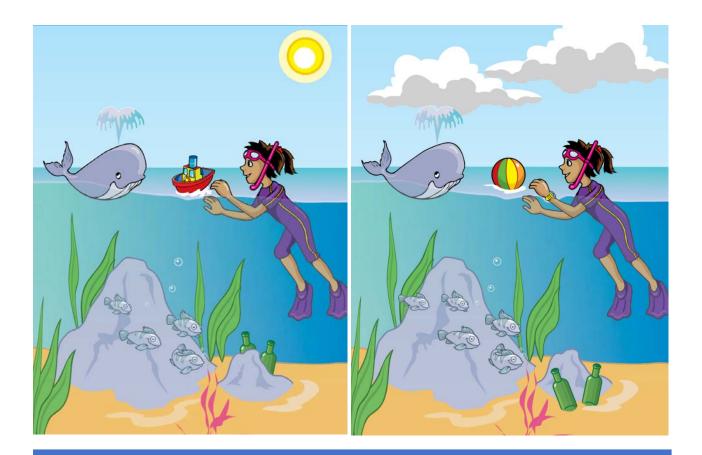

# Handout 1 | Which picture?

# both

## Handout 2 | Sample test
