Results and reporting

Accurate and easy-to-read results

Results reports are easy to read and candidates receive a CEFR level, the international standard for describing language ability. Our unique Cambridge English Scale score also provides more information on a candidate’s performance in each skill. Can Do statements are also included to indicate what someone could be expected to do at their level.

1. Results include an overall CEFR level and Cambridge English Scale score, as well as results for each of the skills tested. This enables you to see candidates’ strengths and weaknesses at a glance, make informed decisions or identify areas for further development.

2. CEFR level descriptors tell you what candidates can be expected to do at their level.

3. Cambridge English Scale scores provide more detailed information about candidate performance, showing where they are within the CEFR levels.

Individual Test Reports

Receive clear, detailed reports for individual candidates.
