Technical Editor

Riscure - Delft

Solliciteer

- We would like to add a technical editor to our team to optimize the process, by editing draft reports, keeping report templates up-to-date and ultimately setting up a reporting framework that reduces the time needed for creating reports.

What skills should I have to be able to join?

- You are proficient in English, preferably with a Cambridge Certificate of Proficiency in English (CPE)
- You have a thorough knowledge of how computers work and are eager to understand our evaluation activities
- You have experience with LaTeX
- You have a creative mind with an eye for detail, and an interest in improving the security of products
- You have good social skills and you are a pleasant co-worker who likes to collaborate in a multidisciplinary team of security specialists and project managers.
