Registration closes on **9.3.2020**

The event is free of charge. An attendance certificate will be provided.

**We are looking forward to your  
participation!**

## Workshops

### **Cambridge: More than just exam preparation**

How do we prepare our students to succeed in a fast-changing world? To collaborate with people from around the globe? To innovate as technology increasingly takes over routine work? To use advanced thinking skills in the face of more complex challenges? These are questions educators around the world are trying to address and to determine the skills and competencies which are increasingly important for our students in the 21st century.

Cambridge University Press has developed the Cambridge Life Competencies Framework to show what different skills there are and how they can develop. Tania Pichierri and Mojca Bensa from Cambridge University Press will show you how these life competencies are already embedded in many of your English lessons and how Cambridge Exam preparation in particular promotes the development of these vital life skills.

### **How writing gets marked**

Statistics show that students in Vorarlberg consistently score lower on the Writing section of Cambridge exams than any other section, regardless of level. The aim, therefore, of this workshop is to provide insight as to how Cambridge assessors mark writing as well as input on how student's scores may be improved. The focus will primarily centre around the B2 First and C1 Advanced exams, however other exams will be touched upon and, of course, questions about exams at all levels are welcome.

Join Bronwyn Konrad, Head English Trainer at WIFI and Cambridge Speaking Examiner for all levels, who will guide you through this session.

**We are looking forward to your  
participation!**
